

Introducing SHADOWCAT: Fully Bespoke, Endlessly Flexible

SHADOWCAT is the industry's leading support yacht developer, offering unmatched experience and prestige. Conceived and designed by world-renowned naval architect and marine engineering firm Incat Crowther, of Sydney, Australia, and yacht industry authority YCTS, Ltd., the award-winning line of bespoke SHADOWCAT vessels provides superyacht Owners with a stunning, yet practical, support yacht that maximises experiences at sea, without compromise. SHADOWCAT's sophisticated hull designs provide generous capacity, yacht-level comfort, greater stability, higher fuel efficiency and some of the highest speeds of its class. No detail is overlooked, delivering support vessels of the highest calibre and performance.

"The quality of workmanship is exceptionally good for this commercial standard of vessel. It blends commercial and yacht standard perfectly to perform yacht support tasks."

— Tom Corness,
Principal Marine
Surveyor, Patton Marine

SHADOWCAT™

COMPANY PROFILE

SHADOWCAT™

Award Winning

SHADOWCAT's award-winning 66m *Hodor*, delivered in 2019, offers incredible deck and storage space for a helicopter, submarine, tenders and more, a stable platform and top speeds for its class. (ARMON Shipyards)

SHADOWCAT

Everything you want, without compromise

Whether Owners opt for a catamaran or monohull platform, SHADOWCATs offer significantly more cargo capacity and space for accommodations, without the need to upgrade an existing superyacht or compromise on the design of a new superyacht. Our catamaran hulls offer 40 percent more cargo capacity than monohulls, and their inherent stability allows 70 percent more weight to be craned off the side. SHADOWCAT's monohull platform offers yacht-level comfort and can offer a zero-emission electric mode, amongst other game-changing innovations. All SHADOWCATs are crafted to meet your specific needs and can offer space for any requirement, including fully certified helipads and hangars, submarines, toys and tenders, while prioritising the health, security and safety of all travellers.

Unique Advantages

- Fully bespoke designs
- Yacht-level comfort
- More deck space
- Faster
- Industry's best fuel efficiency
- Safer
- Lower operational costs

Innovative concepts

SHADOWWOLF

An eco-friendly 69.2m monohull concept ideal for multi-day excursions, voyages into remote locations, and/or for chartering or research.

SHADOWLARK

A 24m or 50m catamaran Launch-and-Recovery Craft (LARC) designed to launch, recover and support Triton submarines.

TOYBOX

A sub-500GT 48m catamaran concept that incorporates many of the award-winning features of the larger designs, but on a smaller hull platform.

Nebula

67m *Nebula*, delivered in 2022, with exterior and interior design by Kirsten Schwalgien Design of Barcelona. (ARMON Shipyards)

Wayfinder

68m *Wayfinder*, delivered in 2021, features an 18-crew capacity and provides ample cargo space for a helicopter, five tenders, jet skis and more. (ARMON Shipyards)
