FIND CONVENIENT SITES OF CARE

ASSURE Local Care Centers (LCCs) are injection providers that may offer more convenient sites of care to receive prescribed ABILIFY MAINTENA[®] (aripiprazole) injections. Health care professionals in these pharmacies are licensed to administer injections.

Receive instant access to the Local Care Centers Finder tool. For assistance, please call the ASSURE Program[™] at 855-24-ASSURE (855-242-7787) or contact your ASSURE Program Manager.

Please see U.S. [FULL PRESCRIBING INFORMATION](#), including **BOXED WARNING** and [MEDICATION GUIDE](#).

Info

ABOUT

Local Care Centers (LCCs) are injection providers that can offer prescription drug counseling and treat patients in accordance with a health care professional (HCP)-directed treatment plan with health care professionals who can administer treatment injections. Injections are administered by employees or contractors for participating locations, and patients will not receive treatment from OAPI or from the ASSURE Program™. OAPI assumes no responsibility for and does not guarantee the quality of treatment provided at a local care center.

HELP

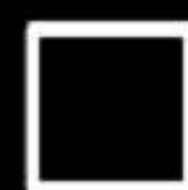

For assistance, please call the ASSURE Program™ at 855-24-ASSURE (855-242-7787) or contact your ASSURE Program Manager. Visit www.ASSURE.com for more information.
