

COVID SMART[™]

AN ONLINE PROGRAM THAT TEACHES WORKERS
THE BEST PRACTICES FOR COVID-19 PREVENTION

**THERE IS FINALLY A SMART
WAY FOR BUSINESSES TO
BRING WORKERS BACK
DURING THE PANDEMIC.**

COVID SMART is a certificate compliance training program for employees that teaches the best practices for preventing the spread of COVID-19, fully consistent with the protocols set by the World Health Organization (WHO) and the Centers for Disease Control and Prevention (CDC)

COVID SMART was developed in partnership with APIC, the largest professional association of expert epidemiologists in the world.

APIC[®]

Association for Professionals
in Infection Control and Epidemiology.

When all employees have completed their training, the business establishment is designated COVID SMART. The management can post clear, consistent signage that informs and reassures the public.

There's finally a SMART way for the public to understand at a glance that a business is applying the best practices in infection prevention:

In less than an hour on any computer or mobile device, employees will master the key skills, including:

- ✓ How viruses are transmitted
- ✓ Proper hand hygiene
- ✓ Cleaning and disinfecting
- ✓ How to don and doff a face mask properly
- ✓ Sneeze and cough protocol

Comprehensive training in

7 modules.

It's easy to complete the COVID SMART training program. Users watch a series of short videos that teach each concept clearly. Every minute or two, a pop-up quiz will test the user's comprehension and retention of the lesson.

Virus Basics

Transmission

Hand Hygiene

Personal
Protective
Equipment
(PPE) Usage

Sneeze
and Cough
Protocol

Cleaning
and Disinfection

Social
Distancing

It's impossible to fail, useless to cheat, and this training provides employers with a precise record that shows exactly when each employee complete the training. This record mitigates risk for the employer.

We can't fight this disease with a vaccine or medicine yet, but we can fight it with good **INFORMATION** and **SAFE PRACTICES**.
