2022 Report of the President: Delaware State University

Print Media | Publications | 11. Annual Report

View the [printed report \(PDF\)](#) online

Project Summary:

Delaware State University is the only HBCU (Historically Black College or University) in Delaware and has expanded significantly in recent years. In collaboration with Friction Free Communications and leadership staff at Delaware State University, Blue Blaze Associates created the layout and design for this 32-page document to highlight the school's latest accomplishments.

Previously, Blue Blaze also designed DSU's *2021 Report of the President*. The 2022 version of the report is formatted to echo the prior year's underlying grid system and maintains compliance with all of the University's brand style guidelines. A new cover design and provided photography has been incorporated to complement the 2022 theme. The final files of the *2022 Report of the President* were set up for digital sharing and for printed distribution to students, staff alumni, and other supporters of the Delaware State University community.
